Quality of Work	Work (e.g., code) looks correct and organized. The project's readme file is clear, intelligible, and give a good idea of what the project is about.	Work (e.g., code) looks mostly correct and organized. The code could be better structured. OR the project readme file is somewhat unclear.	Work (e.g., code) is mostly disorganized. OR the project readme file is very unclear.	No code is given.	3
Comments (e.g. Give an example of what could be improved. How can the code or readme file be improved?, etc.)	Code is organized, developer knows what is wrong, is going to reformat. Gave an example of what he has so far. Hope you can accomplish your goals.				
Project Progress	Main features on the project are working and demonstrated.	Some complex features of the project are working and demonstrated.	A few features of the project are working but have issues.	No progress has been made.	3
Comments (e.g. Give an example of what could be improved. If the project is too complex, what parts of the project could feasibly done? If the project is too simple, what features could be added?)	Video explains what went wrong and that developer wants to restart because of some errors in the code. Good work so far, you seem to know what to do so far.				
Video	The video gives a helpful, clear depiction of the project.	The video gives a helpful, clear depiction of the project, but is confusing or vague in parts.	The video does not give a helpful, clear depiction of the project.	The video is missing or is inappropriate.	3
Comments (e.g. Give constructive feed back to help improve the presentation style.)	Video explains all the current issues. It also demonstrates what they know what to do				

	and shows the debugging steps.
